

From Ordinary to Extraordinary: How I Reinvented Depa Group's Marketing Collateral

As a skilled designer, I had the opportunity to create a custom logo for Depa Group. Utilizing my expertise in design fundamentals and industry software, I crafted a unique emblem that reflects the company's brand identity and values. I take pride in my design work and look forward to creating additional high-quality branding assets in the future.

As part of my role, I was responsible for the creation of the branding and marketing collateral for Depa Group, a leading global interior solutions group. This included the development of visual branding elements such as logos, color schemes, and typography, as well as the design and production of a wide range of marketing materials such as brochures, flyers, and advertisements.
